DESCRIPTION

The Modern Line Side Table was first produced in 1949 by the feminine pioneer Greta M. Grossman and with its simple forms it successfully combines lightness and functionality into a modern yet organic character. Its slender metal legs produce a playful silhouette, while the linoleum table top with different colour options creates an eye-catching feature indicative of Grossman's designs. Highly versatile, the Modern Line Side Table is perfectly suitable as a coffee table, side table or occasional table when extra space is needed.
