リラックスした存在感と座り心地を両立させたソファです。以前のプロジェクトのためにつくられた N-CC01 をベースにしながら、座る人の体が接する内側は総張り込みで柔らかく仕上げ、外側は木の素材感を生かしてソリッドに、構築的にデザインされています。

This sofa combines a laid-back presence with seating comfort. Developed based on the N-CC01 from a previous project, the sofa is designed in a constructive contrast between soft finish of fully-upholstered inside which wrap up seat users and solid outer shell utilizing wood materiality.
