

MOBILE CHANDELIER 5 FLOOR, 2011

Black Patinated Brass
Mouth blown opaline spheres
Pendant rod length to order

OVERALL DIMENSIONS

STANDARD MATERIAL/FINISH

Black Patinated Brass

CUSTOM FINISHES

Satin Brass

Custom Patina

LIGHT SOURCE SPECIFICATIONS

Integrated LED 9W for Ø150mm sphere
750lm / 2700K / 80CRI

PRODUCT SPECIFICATIONS

Input voltage: 120V / 240V
Maximum wattage: 9W
Product weight: 15kg
IP 20 Indoor use only
(suitable for bathroom Zone 3)

Provided with 2500mm cord set and dimmer switch.

Due to the handmade nature of this product dimensions may vary up to 10% for balancing purposes.

CLEANING INSTRUCTIONS

Before cleaning, lighting fixtures must be turned off and unplugged from mains electricity. Whilst cleaning please take care and use the gloves provided.

Patinated Finish: Use a dry soft dust cloth and gently go over marks until clean. The brass patina is achieved through an artisanal technique of applying pigments by hand during a hot patination process. Through this alchemic process, the brass is transformed whilst retaining the material's inherent qualities. It will mature and change overtime. The manner and speed in which it will change will depend on the environment, handling and the level and frequency of maintenance. Verdigris can also appear when the copper in the brass begins to oxidise.

Satin Brass: As the item is unlacquered it will naturally oxidise and darken. Upon touching the items without gloves, fingerprints are likely to occur and leave marks. Use a good quality brass cleaning liquid and follow the product instructions using the extra soft dust cloth. Do not apply pressure on persistent marks. Remove them using repeated gentle motions and by reapplying the brass cleaning liquid.

Opaline Glass: Remove the opaline glass from the product. Using a lightly damp cloth, clean only the outside of the sphere. Only put the glass sphere back on the product once it is fully dry.
