インスピレーションの源になったのは、寺社仏閣の入り口に置かれた木製の傘立てや下駄箱。その仕組みを応用し、ブックエンドや取り外し可能な棚板を取り入れています。一見ただけでその存在に気づくことはありません。使う人が自由にカスタマイズできるデザインです。

Inspired by the umbrella- and shoe racks by the entrance of Japanese temples and shrines, similar construction techniques were used to create the shelving system with their inherent functionalities, such as removable shelves and bookends that aren't visible at first sight. The shelving system is a customizable piece of furniture.
