[W1800] NO. T32610**

天板：大理石

寺社仏閣の戸口などに見られる構造を取り入れたテーブル。細い木のパーツを緻密に組み上げてイタリア産大理石の天板を支え、日常的な使用に十分な強度をそなえさせました。パーツとパーツの隙間は、光が当たった時の表情の変化を意図しています。

A table with its construction being based on the many doors that you find in shrines and temples in Japan. The thin wooden parts are assembled to support the Italian marble stone top, providing sufficient strength for daily use. The spacing between each element allows the light to travel through to make various expressions on the furniture.
