A FAMILY *of* KITCHENS

vipp

Four Kitchens

– One Modular Concept

A Vipp kitchen is a modular concept made of functional units that fit seamlessly together. Built on the same design DNA and underlying construction each model offers a distinct take on form and material.

02	INTRODUCTION	11
----	--------------	----

12	V1 KITCHEN	21
	The original Vipp kitchen.	

22	V2 KITCHEN	31
	A refined evolution in light and dark oak.	

32	V3 KITCHEN	41
	Sleek lines and crafted details wrapped in extruded aluminium.	

42	V4 KITCHEN	51
	The first all-stainless-steel kitchen.	

52	INDEX	57
----	-------	----

DANISH DESIGN SINCE 1939

EIGHT DECADES OF ENDURING DESIGN

Since 1939, Vipp has made durable tools for everyday life. Each design is shaped by the belief that function endures when form is honest. The Vipp kitchen follows the same principle – built for a lifetime of daily use through lasting materials and precise engineering.

KITCHEN COLLECTION

“Our kitchens are built on everything we’ve learned about metalwork since 1939. A kitchen is a tool, not just decoration. Our ambition is to bring functional principles and industrial aesthetics into the private home.”

– KASPER EGELUND, CEO AND 3RD GENERATION VIPP-OWNER

V1

The original Vipp kitchen. A modular design in powder-coated steel and aluminium with a 4 mm solid stainless steel worktop. Functional simplicity, built to last.

V2

A refined evolution. Light or dark oak fronts meet a stainless steel worktop and anodized aluminium, bringing warmth to industrial precision.

V3

Custom-developed anodized aluminium gives the V3 a lighter expression. Sleek lines and crafted details reveal Vipp’s legacy in metalwork.

V4

Distilled to its essence. The V4 brings professional-grade resilience into the home, with a kitchen made entirely in brushed stainless steel.

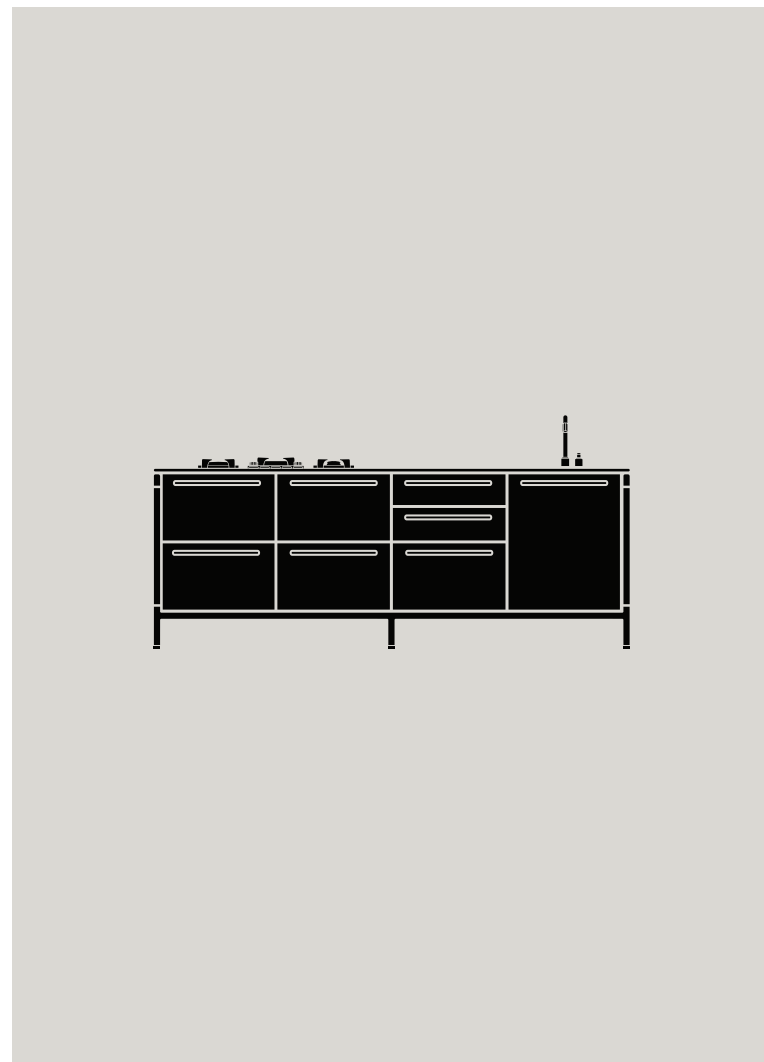

PRICE OVERVIEW

The following examples illustrate price variations for identical kitchen island modules across the four Vipp kitchen variants. Prices are indicative and may vary depending on configuration, materials, region, and optional features.

Note that prices exclude appliances, delivery, and installation.

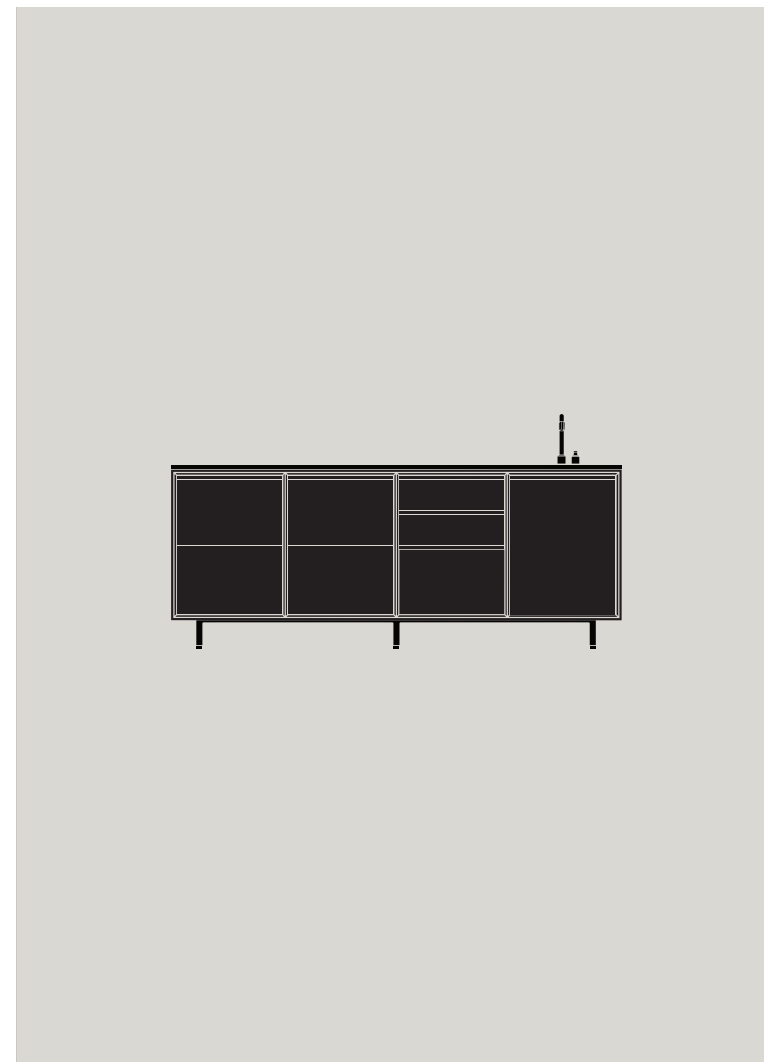

V1 · ISLAND MODULE

From EUR 28,500

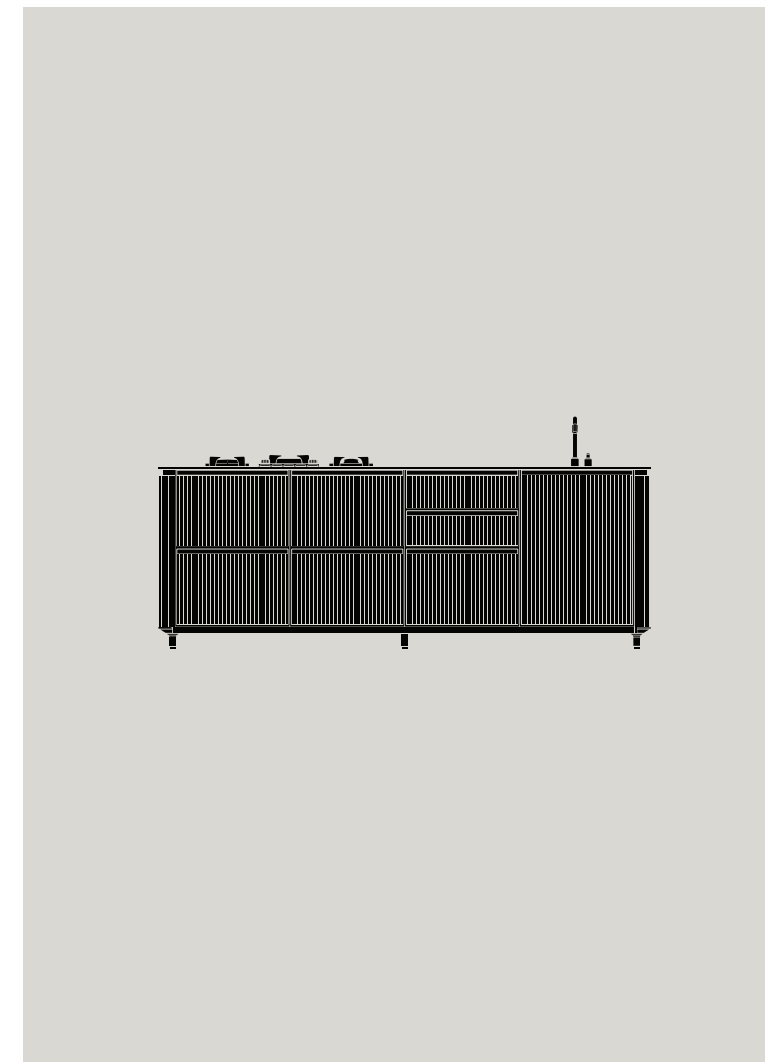

V2 · ISLAND MODULE

From EUR 24,000

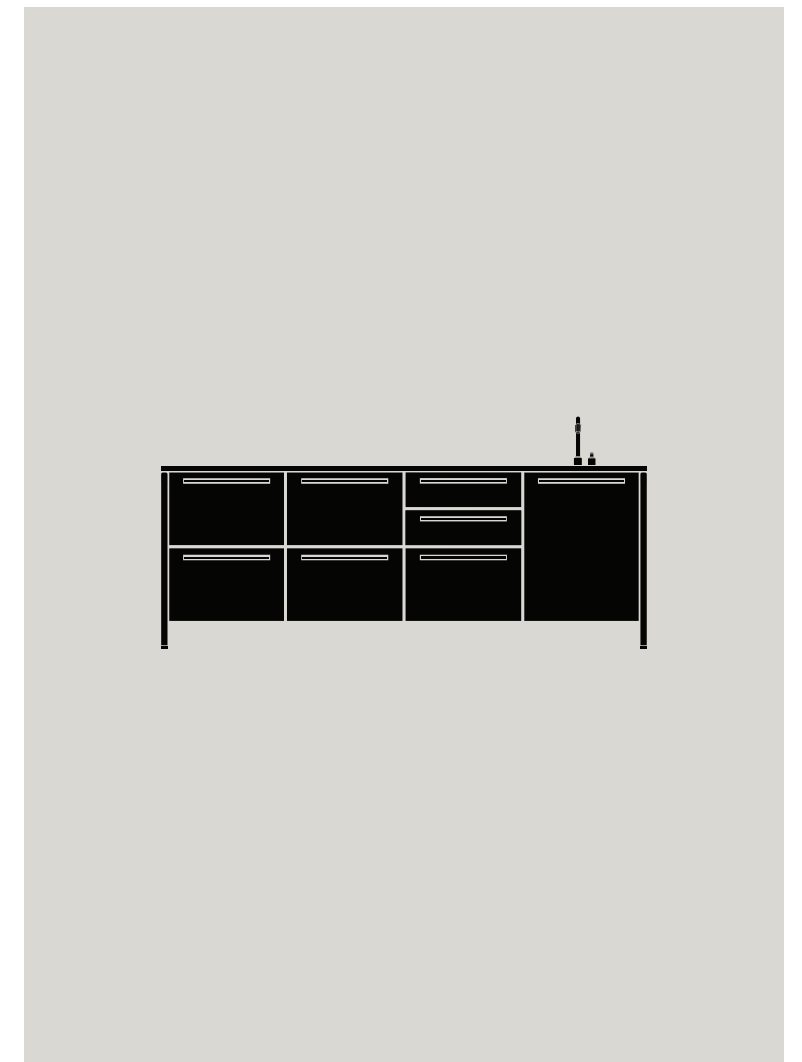

V3 · ISLAND MODULE

From EUR 31,500

V4 · ISLAND MODULE

From EUR 21,000

THE ANATOMY OF A VIPP KITCHEN

STAINLESS STEEL

With a legacy in metalwork, stainless steel is at the heart of every Vipp kitchen. Durable, hygienic, and easy to maintain, it combines industrial strength with refined detailing. Over time, it develops a soft patina that adds character and warmth to the surface.

V1

RAISED ON LEGS

Inspired by furniture, the kitchens are raised on slender legs, a silhouette that has become a hallmark of Vipp kitchen design.

V4

V1

V3

V2

MODULARITY

A Vipp kitchen is a modular concept. We think of it as a system of building blocks. Each module can be configured with predefined units of choice, adapting to a wide range of spaces and needs.

10-YEAR WARRANTY

As a testament to our commitment to quality, we offer a 10-year warranty on all Vipp kitchens.

V1 KITCHEN

Introduced in 2011, the V1 is the original Vipp kitchen, crafted in powder-coated steel with a solid stainless steel worktop. Built from the same durable materials as the iconic Vipp bin, it embodies functional simplicity and lasting quality. Continuously refined yet unchanged in essence, the V1 remains a timeless tool designed for everyday use.

Island module w. end-seating

Tall module, island module

Wall module

At home anywhere - Over the years, the V1 kitchen has proved its versatility, adapting to a wide range of surroundings, from a spacious palazzo in Italy to compact apartments and open-plan family homes.

Island module, Vipp17 Pedal bin

Build your own

The V1 kitchen is available in five different modules: island, island with seating, island with end-seating, wall, and tall modules. Whether fitted for open-plan cooking, a classic workstation against the wall, or maximum storage, each module can be composed of several units.

*Not available in US.

VARIANTS

The V1 kitchen is available in three powder-coated colour variants, black, grey, and white.

Black

Vipp's signature black powder-coating has a slightly textured surface and offers a deep matte black kitchen.

Warm grey

The warm grey colour holds the same softly grained coating as the black option yet conveys a lighter design expression.

White

The white option reveals a clean and polished aesthetic in stark white with a smooth, matte surface

KITCHEN DETAILS

POWDER-COATED ENDURANCE

The fronts of the Vipp kitchen are made from powder-coated steel, which is highly durable and resistant to daily wear and tear.

FRAME AND WORKTOP

The corners of the stainless steel work-top and powder-coated aluminium frame are rounded for a soft take on industrial materials. The solid, one-piece, stainless steel table top is 4 mm thick and floats above the kitchen cabinet to add a light expression to a heavy-weight material.

RAISED ON LEGS

Inspired by furniture, the Vipp kitchen is raised on legs, adding extra functionality with easy access to cleaning. Set screws in stainless steel let you adapt the kitchen to uneven floors.

HANDLES

Mounted on front profiles pressed from the surface, the bespoke handles feature a soft interior silicone profile; a design detail securing a firm grasp.

VI KITCHEN FEATURES

POWER OUTLET

The integrated power outlets add flexibility when cooking in the kitchen. The power outlet is available in a broad variety of international versions.

CANISTERS AND INSERT

A storage solution for dry foods comes in the form of an insert with sixteen holes tailored to fit the two-sized Vipp canisters. The canisters are made from borosilicate glass and fitted with a transparent silicone ring for an airtight seal that prolongs shelf life.

SINK AND KITCHEN TAP

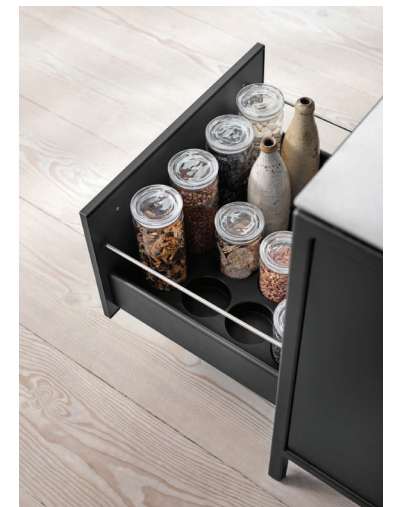

The Vipp tap is designed with a pull-out nozzle for an easy sink clean-up. Grooves in the stainless steel are both a functional means for a firm grip when hands are wet while also being an aesthetic design detail. The integrated sink comes in two sizes.

CUTLERY INSERT

The first shallow drawer is fitted with a soft silicone insert of seven compartments to neatly organize cutlery.

UTILITY RACK

Store away your dishwashing brush under the sink until next use. The inside of the kitchen cabinet door features a rack, a hook, and a tray for excess water.

Vipp V1 kitchen island, pedal bin, and shelves.
Sicilian stonehouse - Mondica, Italy.

*See all kitchen features on p. 54-55

V2 narrow island module - Vipp Pencil Factory, Copenhagen, Denmark.

V2 KITCHEN

Inspired by the Vipp Cabinet system, this new freestanding V2 kitchen blends warm oak veneer with industrial precision. Resting on slender legs, the powder-coated steel frame supports oak and aluminium fronts with integrated handles and a stainless steel countertop. Available in light or dark oak, this modular system offers a warmer take on the Vipp kitchen design ethos.

We did not start from scratch

While oak signifies a new material direction, you will recognize Vipp in the use of our trademark materials: stainless steel and extruded aluminium. Rounded aluminium profiles with reeded details serve as discreet, integrated grips.

Drawer constructions and interior fittings, found in the other kitchens, are repeated in the V2.

MATERIALS – A carefully composed interplay of oak, anodized aluminium, and stainless steel defines the V2 kitchen.

V2 island module - Vipp Garage, Copenhagen, Denmark.

VARIANTS

Choose between light oak veneer with light anodized aluminium or dark oak veneer with dark anodized aluminium.

Both versions come with a 20 mm stainless steel countertop.

Dark oak w. dark anodized aluminium

Light oak w. light anodized aluminium

KITCHEN DETAILS

ANODIZED ALUMINIUM

The anodized aluminium doors with vertically extruded profiles lend the V2 a sophisticated contrast to the oak veneered facades.

HANDLES

Rounded aluminium profiles with reeded detailing serve as discreet, integrated grips.

FRAME AND WORKTOP

Cabinet fronts in light or dark oak veneer, or anodized aluminium, add a refined and tactile design element to the V2 kitchen. The aluminium fronts feature repeated vertical lines and a discreet push-click opening mechanism.

A seamlessly integrated 20 mm worktop, folded from a single sheet of stainless steel with squared corners and precise welds, showcases Vipp's longstanding expertise in metalwork.

The V2 is available in three configurations
Narrow island, island, and wall module.

V2 KITCHEN FEATURES

POWER OUTLET

The integrated power outlets add flexibility when cooking in the kitchen. The power outlet is available in a broad variety of international versions.

DRAWERS

Careful detailing adds extra functionality to the Vipp kitchen drawers. Silicone profiles line the drawer sides to protect delicate items.

ADJUSTABLE FEET

Stainless steel set screws allow you to adjust the kitchen to uneven floors.

BROOM AND DUST

A removable back plate below the sink hides the plumbing and is mounted with a Vipp broom and dustpan set.

UTENSILS AND KNIFE INSERT

The second shallow drawer is fitted with an insert tailored to kitchen utensils including knives.

*See all kitchen features on p. 54-55

V3 KITCHEN

The V3 kitchen brings a distinct character to Vipp's familiar modular design. Freestanding modules are wrapped in a warm-toned, custom-developed anodized aluminium finish, with vertically extruded profiles that curve softly around the edges. The result is a light and refined take on a metallic expression, while the 4 mm solid stainless steel countertop draws a clear line to Vipp's legacy in metalwork.

The art of aluminium

The V3 kitchen introduces a fresh take with its light, aluminium-first appearance. Inspired by the material's use in Vipp's Chimney House and Shelter guesthouses, the elegant, extruded aluminium siding and rounded edges lend the kitchen a refined, architectural presence.

“We think we have managed to create a unique kitchen that feels like a sculptural piece on its own”

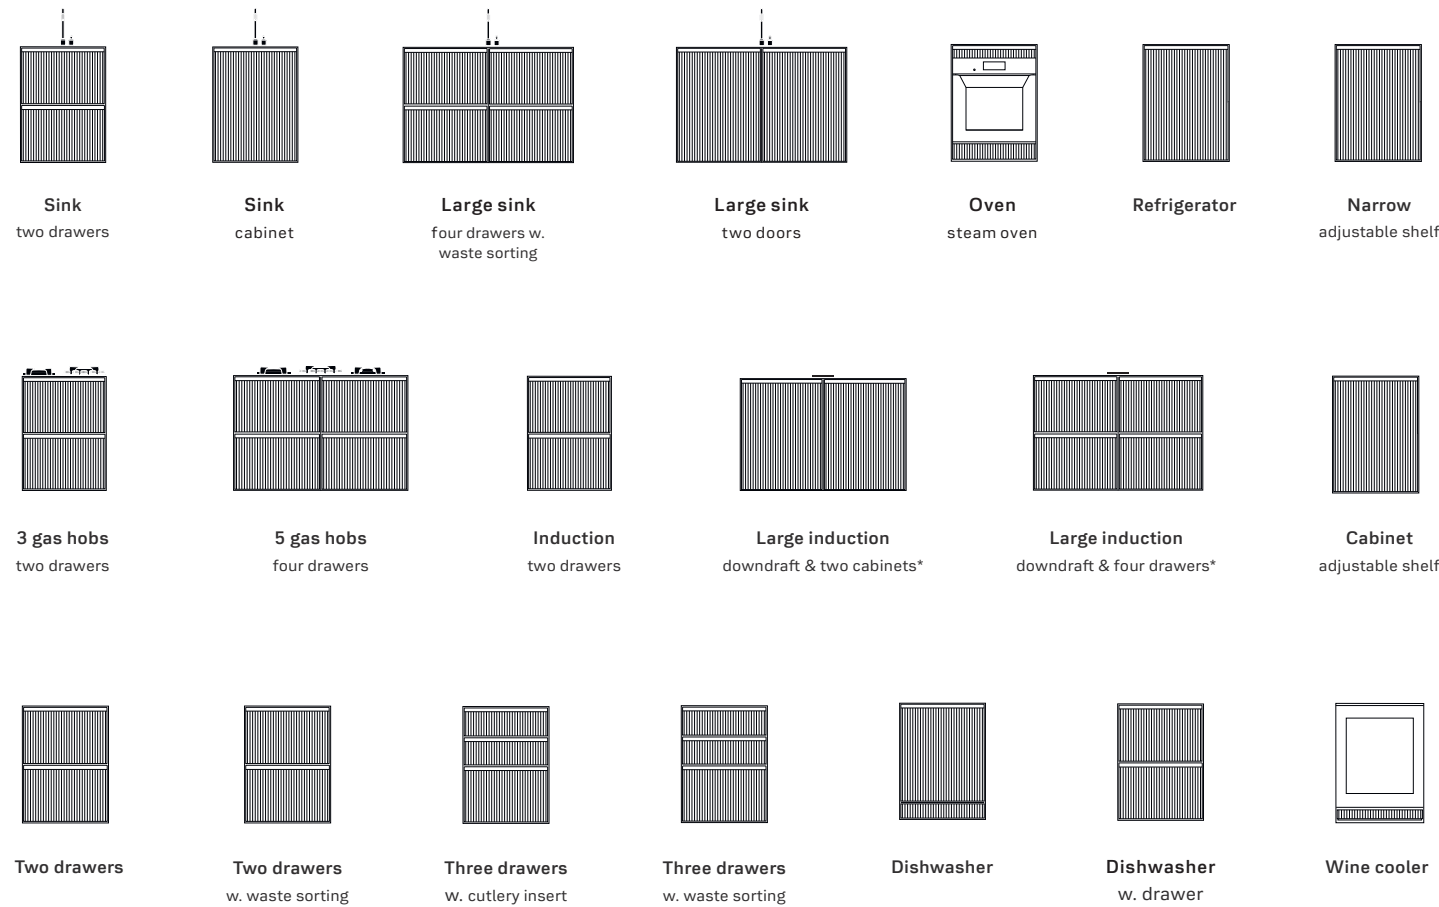

- DESIGN TEAM AT VIPP

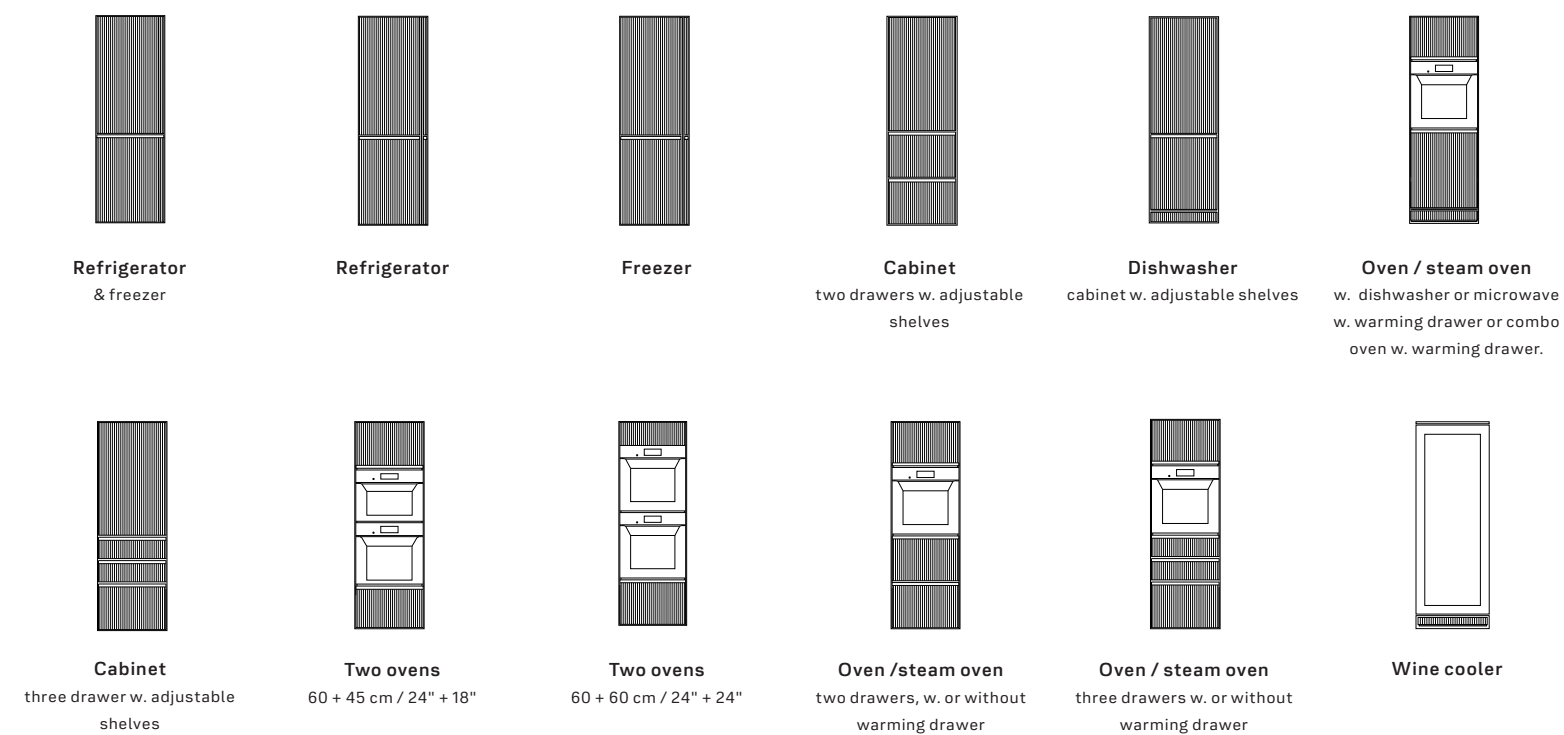

V3 KITCHEN INDEX

UNIT OVERVIEW

LOW UNITS 60 or 120 cm / 24" or 48"

TALL UNITS 60 cm / 24"

*Not available in US.

VARIANT

The Vipp V3 kitchen is made in a warm-toned, custom-developed anodized aluminium finish.

Its softly rounded edges and vertically extruded profiles create a refined texture, highlighting the material's elegance while maintaining Vipp's industrial precision and craftsmanship.

KITCHEN DETAILS

COUNTERTOP

The solid, one-piece, stainless steel table top is 4 mm thick and floats above the kitchen cabinet to add a light expression to a heavy-weight material. Available with either gas hobs or as an induction solution.

EXTRUDED ALUMINIUM

The V3 kitchen introduces one of our trademark materials - extruded aluminium. Vertically extruded profiles curving around the edges bring a light elegance to the metallic appearance.

RAISED ON LEGS

Resting effortlessly on slender legs, the V3 merges everyday functionality with the minimalist aesthetic found across Vipp furniture.

The V3 kitchen is available in five modules
Island, narrow island, island w. seating, wall, and tall.

V3 KITCHEN FEATURES

HANDLES

The kitchen cabinets come with discreetly integrated handles, while the fridge and freezer cabinets feature long handles with rounded silicone edges to manage the weight of the heavier, air-sealed doors.

INDUCTION OR GAS

Choose a flush-mounted induction solution integrated into the stainless steel worktop (with or without downdraft ventilation), or opt for three or five gas hobs that float seamlessly on the surface, paired with Vipp-designed gas knobs.

SECTION INSERT

Larger drawers are fitted with a non-slip removable mat. In the unit with two large drawers, one features a cross to create four smaller storage sections.

CANISTERS AND INSERT

A storage solution for dry foods comes in the form of an insert with sixteen holes tailored to fit the two-sized Vipp canisters. The canisters are made from borosilicate glass and fitted with a transparent silicone ring for an airtight seal that prolongs shelf life.

POWER OUTLET

The integrated power outlets add flexibility when cooking in the kitchen. The power outlet is available in a broad variety of international versions.

*See all kitchen features on p. 54-55

V4 KITCHEN

With its all-metal construction and straightforward detailing, the V4 kitchen carries the resilience of a professional kitchen into the home. Stainless steel is the chef's choice - valued for its durability, hygiene, and easy maintenance. It withstands daily use and, over time, develops a soft patina, adding character.

A NEW TAKE ON AN OLD CRAFT

Building on the framework of the original V1 kitchen, V4 retains a modular construction but replaces powder-coated fronts with raw, brushed stainless steel. The result is a kitchen with a clean expression that celebrates material honesty and tactile durability.

“The V4 kitchen simplifies construction details without compromising on quality. It’s a clean, robust kitchen that stays true to our design DNA.”

– DESIGN TEAM AT VIPP

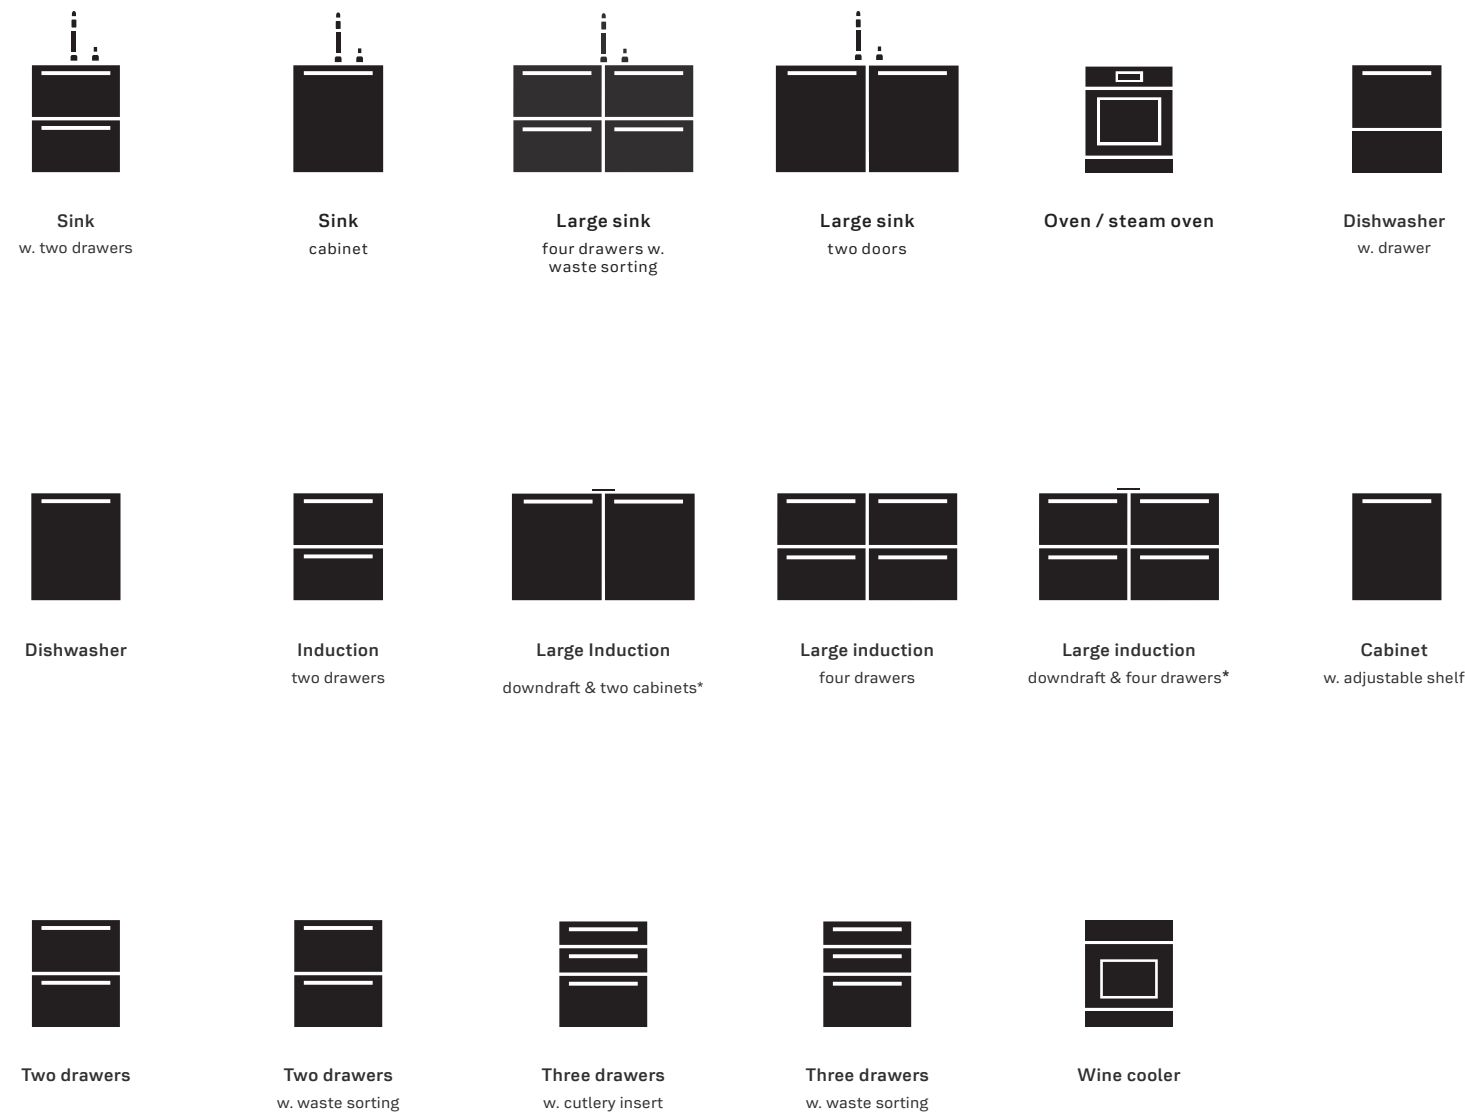

Like previous Vipp kitchens, the V4 is raised on slender legs, echoing the furniture-inspired silhouette that has become synonymous with Vipp kitchens.

V4 KITCHEN INDEX

UNIT OVERVIEW

LOW UNITS 60 or 120 cm / 24" or 48"

VARIANT

Built entirely in brushed stainless steel, this new kitchen merges refined industrial aesthetics with everyday performance.

KITCHEN DETAILS

FRAME AND WORKTOP

Softened corner profiles and a seamlessly integrated worktop folded from a single sheet of steel with rounded corners and precise welds showcase Vipp's longstanding know-how in metalwork.

ADJUSTABLE FEET

Stainless steel set screws allow you to adjust the kitchen to uneven floors.

HANDLES

Horizontal handles mounted directly on the cabinet fronts reference Vipp towel bars and add a distinct design detail to the smooth steel surfaces.

V4 KITCHEN FEATURES

CUTLERY INSERT

The first shallow drawer is fitted with a soft silicone insert of seven compartments to neatly organize cutlery.

SINK AND KITCHEN TAP

The Vipp tap is designed with a pull-out nozzle for an easy sink clean-up. Grooves in the stainless steel are both a functional means for a firm grip when hands are wet while also being an aesthetic design detail. The integrated sink comes in two sizes.

COUNTERTOP

The kitchen is completed with a 28 mm stainless steel worktop folded from a single sheet.

SECTION INSERT

Larger drawers are fitted with a non-slip removable mat. In the unit with two large drawers, one features a cross to create four smaller storage sections.

The V4 is available in two configurations
Island and wall modules.

*See all kitchen features on p. 54-55

Opt for three or five gas hobs that float seamlessly on the surface, paired with Vipp-designed gas knobs.

Gas is available only for the V1 and V3 kitchens.

INDEX ALL KITCHENS

Every Vipp kitchen comes equipped with integrated inserts, shelves, and storage solutions. From non-slip mats and silicone cutlery dividers to power outlets and the iconic Vipp pedal bin, these features are included as standard and designed to simplify daily use.

INDEX ALL KITCHENS

EVERY DETAILS CONSIDERED

INDUCTION OR GAS

Choose a flush-mounted induction solution integrated into the stainless steel worktop (with or without downdraft ventilation), or opt for three or five gas hobs that float seamlessly on the surface, paired with Vipp-designed gas knobs. *Gas is available only for the V1 and V3 kitchens.*

SINK AND KITCHEN TAP

The Vipp tap is designed with a pull-out nozzle for an easy sink clean-up. Grooves in the stainless steel are both a functional means for a firm grip when hands are wet while also being an aesthetic design detail. The integrated sink comes in two sizes.

POWER OUTLET

The integrated power outlets add flexibility when cooking in the kitchen. The power outlet is available in a broad variety of international versions.

KITCHEN CABINET SHELVES

V1, V3, and V4 come with steel-covered cabinet shelves that echo Vipp's industrial design ethos, while the V2 cabinets feature oak shelves.

SECTION INSERT

Larger drawers are fitted with a non-slip removable mat. In the unit with two large drawers, one features a cross to create four smaller storage sections.

CUTLERY INSERT

The first shallow drawer is fitted with a soft silicone insert of seven compartments to neatly organize cutlery.

UTENSILS AND KNIFE INSERT

The second shallow drawer is fitted with a soft silicone insert tailored to kitchen utensils including knives.

CANISTERS AND INSERT

A storage solution for dry foods comes in the form of an insert with sixteen holes tailored to fit the two-sized Vipp canisters. The canisters are made from borosilicate glass and fitted with a transparent silicone ring for an airtight seal that prolongs shelf life.

CARE

STAINLESS STEEL WORKTOP

Keep stainless steel clean and dry. Stainless steel may be permanently stained if water, fat, or cleaning products are not removed relatively quickly. Use warm water with a mild detergent and a soft sponge or lint-free cleaning cloth for daily or regular cleaning. We recommend using the **Vipp Stainless Steel Cleaner** for care and protection of stainless steel surfaces.

POWDER-COATED SURFACES

Keep powder-coated surfaces clean and dry. Use a lint-free cleaning cloth or a soft brush with warm water and a mild detergent. This applies to both smooth and rough powder-coated surfaces.

SILICONE

We recommend cleaning the silicone mats in the washing machine at a maximum of 95°C. Make sure to thoroughly dry off the mats before placing them back in the drawers.

UTILITY RACK

Store away your dishwashing brush under the sink until next use. The inside of the kitchen cabinet door features a rack, a hook, and a tray for excess water.

SORT YOUR TRASH

A deep drawer with five removable compartments offers an integrated and sustainable waste-sorting solution in all kitchens.

BROOM AND DUST

A removable back plate below the sink hides the plumbing and is mounted with a Vipp broom and dustpan set.

VIPP17 PEDAL BIN

A bestseller for the kitchen, the largest of the five-sized pedal bin holds 30 litres / 8 gal of rubbish and comes with Vipp bin liners.

TALL RACK

The Vipp rack is a modular shelving system made in powder-coated steel and aluminium with black laminated shelf tops. An ideal kitchen companion for added storage.
